## Amiano Construction Interior Contractors

provides general contracting services to corporate clients in the commercial renovation and new construction marketplace. A fully insured and bonded operator, Amiano Construction serves clients principally in the north-central New Jersey and eastern Pennsylvania regions.

Our responsiveness and openness from the planning phase to the last punch-list reflects a reputation for quality and customer satisfaction. Amiano Construction is also a Dunkin' Donuts Certified Contractor. From bank branches, churches, executive offices, factory process tanks and historic hotels, industrial plant exteriors, research labs and warehouse-office conversions – no job is too small or too large.

### Services include:

- Suspended Ceilings Offices
- Interior Demolition
- Clean Rooms & Laboratories
- Carpentry, including steel framing, drywall finishing and cabinetry – Epoxy & Corian Counter Tops
- Heating, Ventilation, and Air Conditioning
- Plumbing and Sprinkler Installation
- Painting, Decorating, and Floor Coverings
- Exterior Facades and Siding

Amiano Construction believes customer satisfaction is the first priority. For over forty years, we have strived to fulfill every expectation of the client, doing so in an extremely competitive and cost efficient manner.

Aug. 27, 2009

Akzo Nobel in Bridgewater, NJ has partnered with Amiano Construction of many projects over the last 20 years. Amiano continues to get the nod on jobs both large and small thanks not only to their competitive pricing, but also thank to their outstanding quality of workmanship and professional skills. It is rare to find a contractor that routinely exceeds our high standards of engineering quality, schedule and attention to details. Amiano Construction has successfully completed projects at our campus up to a value of over \$700,000, and we would gladly welcome the opportunity to do further business with them.

Our facility is a 100 acre research and administrative headquarters, with over 1000 employees. Our internal customers can be difficult to please; they routinely demand the very best in project quality and schedule, while aggressively seeking the best price available. Amiano has always been willing to work with us to meet the difficult demands, and has done so willingly and cheerfully.

Our company is very selective about the contractors with whom we work, to ensure they meet our world-class standards for safety and health performance. All contractors are required to submit documentation of their loss records and current S&H programs before even being considered for contract bidding. Amiano's employees have consistently exceeded our expectations: their employees work safely, adhering not only to the basic safety standards but incorporating best practice into their daily work. Put simply, they are one of very few contractors that we can rely upon to work hard to assure the safety and health of their employees as well as ours, adhering to the same high standards that we set for our own company.

Working with Amiano has been a partnership in the truest sense of word, enabling both companies to reach our goals, with the highest mutual respect and professionalism.

Akzo Nobel

Gentlemen,

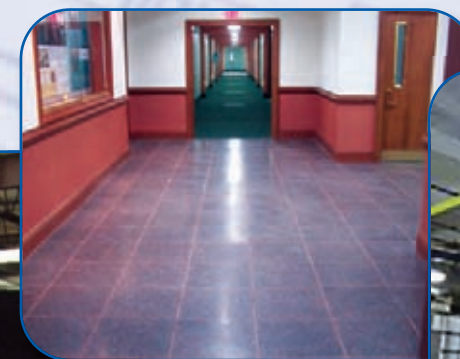

I would like to express my gratitude for all of your patience, professionalism, and craftsmanship in completing the transformation of my store, Baskin Robbins V PC#361781 in a timely manner. I knew the task you took on was not an easy one. Especially, due to the constant changes made by Baskin Robbins in equipment and designs. The hardships you all had to endure with the equipment vendors were also difficult (Because they are also your competitors). You were able to create a great store despite the obstacles you faced. Ray, a special thanks to you for your patience in taking my phone calls and walking me through the details and procedures. Lawrence, Thank You for designing my store when I searched helplessly for an architect and for recommending me to a reliable contractor. Anthony and Steve, thanks for your professionalism and craftsmanship in transforming my store. I have received a lot of positive feedback from my customers. I will not hesitate to recommend you to anyone else who needs an excellent contractor.

Again, gentlemen, many thanks to all of you.
